Recent IPO Updates:

- A surge in public listings (IPOs) is driving startups to overhaul leadership, hiring seasoned CXOs to ensure better governance and execution readiness.
- Hospitality chain Pride Hotels plans to launch its IPO by March 2026, filed its preliminary papers with SEBI in October, to fund renovations and reduce debt.
- Insurtech unicorn Acko is preparing for an IPO worth $300 - 400 million by 2026-27 through a mix of fresh issue and OFS share sales.
- Phytochem Remedies' SME IPO opens December 18 and closes December 22, 2025, offering a fresh issue worth ₹38.22 cr, listing at BSE SME.

P.E. & Funding Updates:

- Indian startups secured over $137 million in funding last week (Dec 8–13), with fintech lender Fibe topping the list with a $35 million round.
- The National Asset Reconstruction Company (NARCL) saw recoveries jump to ₹4,192 cr (13.7% of acquisitions) between April and October, signaling faster resolution of bad loans.
- Validated by Meesho's IPO success, Prosus retains its stake and targets Indian AI and fintech, bolstered by nearly $4 billion in recent portfolio gains.

Business & Economic Updates:

- The SEBI board is set to discuss simplifying IPO disclosures and revamping mutual fund fees to enhance transparency and reduce costs for investors.
- The Finance Ministry has directed lenders to ensure basic banking services are available at all branches and to rationalize service charges for customers.

- FPIs withdrew ₹17,955 cr from Indian equities in early December 2025, driven by rupee depreciation and attractive valuations in other emerging markets.
- The Nifty 200 Momentum30 index rebalancing triggered approximately ₹16,000 cr in passive inflows and outflows, causing significant price volatility across affected stocks.
- India's solar energy sector is expanding rapidly, fueled by substantial new capacity additions and strategic regulatory changes aiming to boost national renewable goals.
- India has emerged as the global leader in Generative AI education with 3.6 million enrollments, reflecting a rapid workforce transition toward digital skills.
- The Confederation of Indian Industry (CII) has urged the government to increase capital expenditure in the upcoming budget, specifically targeting transport and logistics infrastructure.
- Driven by festive demand and stabilizing global markets, India's gems and jewellery sector recorded a significant 20% year-on-year export growth in November.
- A downward trend in lending rates is expected to compress Net Interest Margins (NIMs) for banks, prompting a focus on volume growth to sustain profitability.
- Technical analysts predict a continued uptrend for the Nifty 50, identifying a decisive breakout above the 26,300 mark as the trigger for the next rally.
- To bridge the trade deficit and hit a $100 billion target, India has identified 300 specific products, including engineering and pharma, for export to Russia.
- A parliamentary committee flagged India's 89% crude oil import dependence as a security risk, urging rapid diversification of supply sources and stronger risk management.
- SEBI is outlining a strategic roadmap prioritizing investor protection to deepen markets, focusing on faster settlements, simplified compliance and enhanced transparency to boost participation.
- A Deloitte report reveals that half of Indian family-owned businesses now generate annual revenues between $1 billion and $30 billion, showcasing immense scale.
- Indian fintechs are expanding globally, leveraging new licenses to capture the growing market for cost-efficient cross-border merchant payments.
- Google's Gemini is rapidly closing the gap with OpenAI's ChatGPT through deep integration into the Google ecosystem and improved multimodal capabilities.

- Gold and silver rallied to records; MCX gold touched ₹1,35,263 (up 2.42%) and silver surged to ₹2,01,615 (up 5.15%) amid global inflation focus.
- NITI Aayog emphasizes that India must significantly deepen its corporate bond market and credit access to fund the infrastructure needed for developed nation status.
- India is drafting stricter regulations for imported internet communication equipment to prevent cyber espionage and secure critical digital infrastructure.
- India ranked 3rd globally in Stanford's 2025 AI Vibrancy Index, following the US and China, highlighting its growing strength in AI research and innovation.
- ISRO is accelerating its schedule with seven planned launches by March 2026, including the first uncrewed test flight for the Gaganyaan human spaceflight mission.

Geopolitical Updates:

- India and Hong Kong have emerged as the dual engines of Asia's capital markets, fueling a record-breaking year for fundraising and shifting financial gravity within the region.
- Japan reaffirmed its commitment to partnering with India in developing a robust semiconductor ecosystem, focusing on supply chain resilience and technological collaboration.
