## Recent IPO Updates:

- Omnitech Engineering's IPO raised ₹174 Cr from 17 anchor investors ahead of its IPO opening today. The funds are earmarked for expanding its precision engineering manufacturing capabilities to meet rising global demand.
- Acetech E-commerce Ltd.'s SME IPO opens for subscription on February 27, 2026, on the NSE Emerge platform. The company plans a fresh issue of 43.7 lakh equity shares to fund its working capital requirements and aggressive marketing expansion.

## P.E. & Funding Updates:

- Cross-border payment platform Xflow raised ₹141 Cr at a valuation of ₹722 Cr. Led by GC, the funding will be utilized to expand its international financial infrastructure and services.
- AI-powered recruitment platform HireBound raised ₹17 Cr from Kalaari Capital. The startup aims to optimize its talent-matching technology to simplify the hiring lifecycle for modern tech enterprises.
- A Hyderabad-based student mobility startup, ZeroMoblt, received ₹1.5 Cr in funding from prominent investors, including the JioMart CEO. The funds will enhance specialized transport solutions for the educational sector.
- Fabless semiconductor startup optoML raised ₹15 Cr to accelerate hiring. This investment supports India's growing hardware ecosystem, focusing on scaling specialized engineering talent for advanced chip design.
- AI-powered SaaS startup Kris@Work raised ₹25.5 Cr to optimize Go-To-Market (GTM) team operations. The investment will be used to scale its platform and improve sales efficiency through advanced automation.
- Oncology startup Oncare raised ₹27 Cr to expand its network of specialized clinics. The funding aims to improve access to affordable cancer care and modernize clinical infrastructure across multiple regions.
- D2C kitchenware brand Basil secured ₹17 Cr to broaden its product portfolio and market reach. The capital will support new product development and strengthen its distribution network across India.

## Business & Economic Updates:

- NITI Aayog's National Monetisation Pipeline 2.0 (NMP 2.0) targets raising ₹1.79 Lakh Cr from state-run IPOs by FY30. Key sectors include Railways and Green Energy, with IRFC and Coal India subsidiaries leading the charge.
- Switching from H-1B to visitor visas has become significantly riskier due to heightened US scrutiny. This change limits flexibility for Indian professionals navigating employment gaps amidst tightening immigration oversight.
- The Union Cabinet approved ₹9,072 Cr for critical railway projects across four states. These infrastructure upgrades aim to enhance regional connectivity, streamline logistics and support long-term national economic growth.
- Driven by AI and ER&D, IT services revenue is projected to surpass ₹25.50 Lakh Cr in FY26. The sector's evolution into high-tech digital solutions remains a primary growth engine.
- Deepinder Goyal's LAT Aerospace acquired Sharang Shakti to enter the defense technology sector. This strategic move highlights growing private sector interest in India's domestic aerospace, security and defense manufacturing.
- Nasscom predicts Indian tech industry revenues will grow 6.1%, reaching approximately ₹26.77 Lakh Cr by FY26. This growth highlights the industry's resilience and expanding global digital footprint.
- Market volatility wiped out ₹5 Lakh Cr in investor wealth today. Fears regarding AI's impact and looming global tariff tensions triggered a massive rout across major Indian equity indices.
- SEBI Chairman Tuhin Kanta Pandey signaled a willingness to introduce limited oversight for the grey market. The regulator is exploring an exchange-based mechanism to bring transparency to "to-be-listed" shares.
- Sumitomo Mitsui Banking Corporation (SMBC) has carved out India as a standalone global vertical. This restructuring follows RBI's approval to establish a wholly-owned subsidiary, reflecting India's growing importance in global finance.
- The RBI Deputy Governor stated that India is currently in a "virtuous cycle of growth and stability." Robust banking health and resilient macroeconomic indicators are expected to sustain high GDP growth throughout FY26.
- The UP government launched a new scheme to empower rural women, offering micro-grants and credit-linked subsidies totaling ₹5,000 Cr for self-help group-led startups and retail enterprises.
- India is launching its first comprehensive carbon-trading market. The programme aims to regulate emissions across nine industrial sectors, aligning domestic climate goals with global green standards.

- NITI Aayog Vice Chairman Suman Bery emphasized that India must significantly lift labor productivity to reach the "Viksit Bharat" goal and a ₹15 Lakh per capita income.
- As investments in AI infrastructure surge, experts urge India to ensure the ₹17.5 Lakh Cr data centre rush remains sustainable via green energy integration.
- The US imposed a preliminary 126% duty on Indian solar imports over subsidy concerns. This move threatens Indian manufacturers' access to a major export market.
- Commerce Minister Piyush Goyal stated India is open to a "calibrated" review of China's investment rules. The government seeks to balance domestic security with supply chain needs.

## Geopolitical Updates:

- India-Israel FTA talks began in New Delhi this week. Negotiations aim to boost the ₹30,770 Cr bilateral trade by expanding cooperation in cybersecurity, high-tech manufacturing and agriculture.
- The US imposed 10% global tariffs on imported goods, which took effect on February 24, as the US administration seeks to address balance-of-payments deficits. The move follows a Supreme Court ruling that clarified presidential trade powers.
- Ahead of Canadian PM Mark Carney's visit to India on February 26, both nations are fast-tracking the Comprehensive Economic Partnership Agreement (CEPA). The pact aims to double bilateral trade to ₹4.54 Lakh Cr by 2030.
