SANDEEP KAPOOR

Scaling new heights of success with hard work & dedication and leaving a mark of excellence on each step; targeting senior level across IT industry, such as **Development Manager, QA Manager** and **Release Manager**, leveraging extensive experience in Software Development, QA/Testing and Digital Media Marketing.

PROFILE SUMMARY

- Excelled in the IT industry for over 19 years, with expertise in software development, life cycle management, QA and web technologies, while currently focusing on digital media marketing.
- Proficient in leading teams and creating comprehensive test plans, ensuring the successful release of products through expertise in software development, life cycle, testing, debugging, and web technologies.
- Achieved an 80% increase in cross-browser compatibility and thorough bug tracking by estimating, planning, and coordinating testing activities in the current role as Development Manager at Open Access Technology India.
- Shouldered responsibility of spearheading the development and implementation of projects, collaborating with USA operations, mentoring the team, and actively contributing to the Software Development Life Cycle (SDLC) at Open Access Technology India.
- Hands-on experience in establishing quality engineering organization, making transition from traditional quality assurance to quality engineering practices
- Extensive experience in Software Test Life Cycle including test strategy preparation, test plan creation, test estimation, test design, test data preparation, review test artifacts, test execution, test summary preparation and QA sign-off
- Strong skills in product testing strategy and execution involving creation of test scripts/cases and execution, debugging, Functional Testing, UAT and Regression Testing
- Capabilities in defining and implementing test automation strategy including roadmap, tools, framework & approach across project teams; enhanced the test coverage and scale up the efficiency
- Technical expertise entails:
  - AGILE project management | JIRA | AWS | GITHUB
  - Selenium for performing Automation Testing | DB Testing | API Postman Testing | Manual Testing
  - Test cases, Quality and Release Management
  - Script Development & Maintenance
- Acting as a bridge between Business Users and Application Team
- Skilled in establishing and enforcing Standard Test Processes and Deliverables (including defect management in TRT and quality metric reporting) to streamline testing and manual testing efforts
- Keen analyst with excellence in gathering and understanding requirements of clients & other multiple stakeholders (at strategic levels)
- Played a key role in extending application management support; worked on Agile environment to produce quality releases
- Excellent at imparting trainings on key domain/application knowledge and performance management

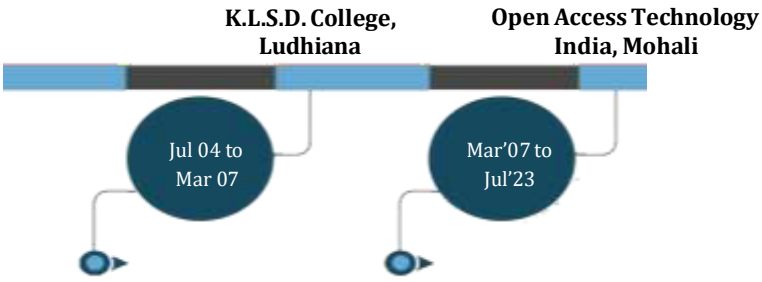
CORE COMPETENCIES

- QA Plan and Strategy
- Test Automation/Metrics Management/ Selenium
- Testing Tools & Methodologies /AWS/POSTMAN API/DB
- Strategic Project Management/Delivery Excellence
- Defect Management/ Bug Tracking / JIRA
- AGILE/Waterfall/Scrum Methodologies
- SDLC/STLC
- Test Case/ Test Estimation
- Team Management
- Automation/Functional/Regression /Unit/ Product/Manual/Black Box/ Performance Testing
- Daily Scrum, Sprint Planning, Sprint Demo and Meetings
- Cross-functional Coordination

FREELANCE ASSIGNMENT

Since July 2023 – Present | Freelance – Development/QA Manager/Consultant – Third Bridge

CAREER TIMELINE



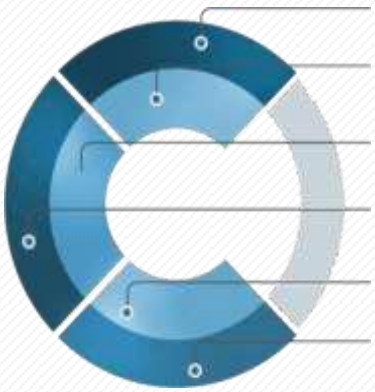
WORK EXPERIENCE

Mar'07 to Jul'23 with Open Access Technology India, Mohali
Growth Path:

2007 – 2010 Software Developer → 2010 – 2014 Group Lead → 2014 – 2016 Senior Group Lead → 2016 – 2017 Project Lead → 2017 – 2021 Senior Project Lead → 2021 –2023 Development Manager

- Achieved significant milestones by collaborating with USA operations to develop and implement projects.
- Generated detailed, comprehensive, and well-structured test plans and test cases.
- Reviewed requirements, specifications, and technical design documents to provide timely and meaningful feedback.
- Estimated, planned, and coordinated testing activities, ensuring cross-browser compatibility.
- Designed, developed, and executed scripts, meticulously documenting and tracking bugs.
- Conducted manual testing and regression testing upon bug resolution, monitoring the debugging process results.
- Demonstrated strong knowledge of software QA methodologies and processes.
- Shouldered responsibilities of project goal completion, explaining reasons for success or failure. Monitored team progress regularly and acted as a technical mentor to team members. Led major aspects of Demand Energy Response Management System (DERMS) solution design, development, and deployments for seven years, accumulating a wealth of skills and experience.
- Worked on webMeter, webRTO, webGEO, WD_Settlements, WD_Dispatch, and Power Flow products in India.
- Managed a team of developers for development, creation, and testing of problems.
- Implemented the company's Web Settlement Pro clone "Beta" project.
- Delivered energy software products for demand response, meter data management, distributed energy resource optimization, solar generation forecasting, GEO mapping, and customer portal.
- Maintained DERMS solution and worked with lead developers on software product maintenance and support activities.
- Prepared reports/notes on software operation and maintenance status, reviewed daily status reports of team members for on-time task delivery.
- Conducted training needs assessments and year-end competency assessment reviews.
- Managed assignments and deadlines for assigned tasks.
- Worked closely with developers to resolve issues and sought assistance from other teams when needed.
- Designed and implemented software solutions for DERMS application to interface with webMeter and Settlement.
- Collaborated with Project Managers and developers to ensure efficient development of Smart Grid products.
- Maintained close communication with teams to ensure on-time delivery and a high-quality customer experience while meeting business goals.
- Designed, developed, and unit tested applications in accordance with established standards. Monitored post-release product performance and optimized to meet objectives.
- Acted as a leader to ensure efficient completion of the application within the required time frame.
- Reactively modified software to correct discovered problems and improved performance or maintainability.
- Managed day-to-day activities of the development team.

SOFT SKILLS



Change Agent
Collaborator
Communicator
Innovator
Planner
Thinker

TECHNICAL SKILLS

Energy domain	ETRM Smart Grid and QA Smart Grid.
Web technologies	JavaScript, HTML, CSS, ASP, XML, AJAX and .NET, T-SQL / Microsoft SQL Server.
Project Management	AGILE, JIRA, AWS, API Postman, Selenium, GITHUB.

EDUCATION

- MCA from Kurukshetra University, Kurukshetra
- MSc. (I.T.) from Punjab University, Chandigarh
