Recent IPO Updates:

- Hyderabad-based Aarvee Engineering Consultants has received SEBI approval to launch its IPO, a fresh issue of ₹250 Cr, to fund its subsidiaries and repayment of debt to strengthen the balance sheet.
- Logistics startup GoBoult plans to file its preliminary IPO papers by October this year, with a strategic target to list on the public markets by the summer of 2027.
- Renewable energy leader CleanMax Enviro has secured ₹1,500 Cr in a pre-IPO round led by Temasek and Bain Capital, valuing the firm at ₹12,200 Cr ahead of its upcoming listing.

P.E. & Funding Updates:

- Pet care startup Supertails has secured approx ₹271.8 Cr to expand its veterinary ecosystem, aiming to enhance healthcare services and product offerings for pet parents across India.
- Omni-channel jewellery retailer BlueStone has invested ₹25 Cr in Ethera, a lab-grown diamond jewellery brand, to strengthen its foothold in the sustainable and modern luxury jewellery market.
- Hygiene management startup PadCare has raised approx ₹27.2 Cr to significantly scale its sanitary waste recycling capacity and expand its sustainable waste management solutions.
- Agentic QA platform BotGauge AI has secured roughly ₹18.1 Cr to scale its operations and further develop its artificial intelligence-driven quality assurance technology.
- Pet nutrition brand Benny's Bowl has raised around ₹12.7 Cr to drive product innovation and offer healthier, fresh food options for pets in the Indian market.
- Indian deeptech startup Satlabs Space Systems has successfully raised ₹9 Cr in funding to advance its satellite technology and expand its capabilities in the growing space sector.

- Piramal Finance has secured approx ₹3,624 Cr through External Commercial Borrowings (ECB) from a mix of global and local lenders to fund its expansion into India's rural markets.
- Global investment firm Carlyle Group has agreed to invest ₹2,100 Cr in the home finance arm of Edelweiss, strengthening the lender's capital base to capture growth in the housing sector.

Business & Economic Updates:

- Foreign Venture Capital and Private Equity firms are facing increased scrutiny from Indian tax authorities following tighter global rulings on cross-border transactions and fund structures.
- The Indian government plans to accelerate the sale of stakes in Public Sector Undertakings (PSUs) to meet the mandatory 25% public float requirement, likely leading to more secondary market offerings.
- The capital markets regulator SEBI is planning to introduce stricter norms to monitor the utilization of proceeds raised through IPOs and QIPs.
- Shares of BSE Ltd surged 6% to reach a new all-time high, driven by strong investor sentiment following the exchange's robust financial results for the third quarter.
- PhonePe maintained its market leadership by recording 9.9 bn UPI transactions in January, while fintech competitor CRED slipped to the 8th position in the overall UPI ranking.
- Analysts at MOFSL report building momentum in the auto sector, identifying TVS Motor Company and Maruti Suzuki as top stock picks due to strong performance and market outlook.
- The government has notified stricter IT rules requiring social media platforms to remove deepfakes and harmful AI content within just 2 hours of reporting to curb the spread of misinformation.
- A new report by Zscaler places India 2nd globally, after the US, in enterprise AI usage, reflecting the rapid adoption of artificial intelligence tools by Indian businesses to drive efficiency.
- India is set to abolish the equalization levy on digital services to simplify online trade rules, a move expected to ease friction with major trading partners and align with global tax frameworks.
- India’s Automobile Sector, passenger vehicle retail, has seen sales increase by 7% in January, driven primarily by a resurgence in rural demand, according to the latest data from the Federation of Automobile Dealers Associations (FADA).
- The securities regulator (SEBI) has put a hold on proposals from NCDEX and the Metropolitan Stock Exchange (MSE) to launch options trading, delaying their expansion into the derivatives segment.

- India is shifting its defence buying strategy by tweaking the "L1" (lowest bidder) formula to prioritize indigenous design and R&D, favoring domestic companies over simple technology transfers.
- The implementation of "GST 2.0" is beginning to yield results for FMCG companies, with streamlined tax structures helping to drive up sales volumes across rural and urban markets.
- The government has introduced stricter IT regulations to monitor social media platforms, specifically focusing on the rapid removal of deepfakes and AI-generated misinformation.
- With strong AI and digital public infrastructure (DPI), India is positioning itself as a global leader in the future of finance and digital-first economic governance.
- Indian steel manufacturers are actively exploring new markets in the Middle East to diversify exports and offset fluctuating demand in traditional Western markets.
- India is intensifying diplomatic efforts to secure deals on critical minerals, aiming to strengthen supply chain resilience for the electronics and electric vehicle sectors.

Geopolitical Updates:

- The UK-India Free Trade Agreement (FTA) was metaphorically likened to a "bag of soggy poppadums," highlighting political dissatisfaction with the quality and terms of the proposed deal.
- In a historic move, India and the US have finalized an interim trade deal featuring reciprocal tariff cuts, a permanent duty-free digital trade status and a social security pact benefiting IT professionals.
- French President Emmanuel Macron is scheduled for a 3-day state visit to India to discuss the "Horizon 2047" roadmap and inaugurate the India-France Year of Innovation.
